Catholic Parish & Community Organization —

Complete Administrative Office Furnishing

Challenge

A parish administrative office is unlike most office environments. Staff manage sacramental records, financial administration, community outreach, event coordination, and pastoral support — often simultaneously, always in service of a community counting on them. Twelve individual offices. Twelve distinct configurations. One unified, professional environment throughout.

A thriving Central Florida Catholic parish serving over 2,200 registered families needed to furnish their complete administrative office environment. With a dedicated staff managing pastoral, administrative, financial, and community programming responsibilities every day, every team member needed a workspace built for the full scope of their daily work.

They called Boomerang Office Furniture.

Solution

Boomerang Office Furniture furnished all twelve administrative staff offices using Artopex's Mythos collection — a comprehensive modular system allowing each office to be precisely configured for its occupant's specific workflow while maintaining a consistent laminate finish and design language across the entire administrative suite.

Every office was built around a tailored Artopex Mythos workstation — rectangular desk tables ranging from 21"x66" to 30"x72" paired with reversible returns and bridge returns from 24"x42" to 24"x60" creating full L-shaped workstation footprints. Freestanding UUF pedestals at every workstation provided organized mobile storage within immediate reach. Lateral file cabinets with full-extension file/file drawers handled the sacramental, financial, and administrative documents the team manages daily.

Storage was comprehensive throughout — Mythos storage units at 21"x30"x71⅜" configured for each role with combinations of open shelving, hinged doors, and lateral file drawers. Freestanding hutches ranging from 66" to 84" wide provided organized overhead storage above every primary workstation. Select offices received bookcases with four adjustable shelves, credenzas in 60" and 72" configurations, and additional storage units with wardrobe sections. Fabric tackboards in every office — ranging from 63⅜" to 81⅜" wide — gave every staff member a practical wall-mounted surface for schedules, reference materials, and daily notes. Two offices received pneumatic adjustable round tables with casters for flexible, mobile secondary workspace.

Conclusion

By partnering with Boomerang Office Furniture, this Central Florida Catholic parish created a complete administrative environment that reflects the care and dedication their team brings to serving their community every single day. Whether it's a faith community, a nonprofit, a government agency, or a professional services organization, Boomerang Office Furniture delivers complete administrative environments built around the people doing the work.

Results

Twelve fully furnished private staff offices delivered as a single coordinated project

Tailored workstation configurations in every office — sized and configured precisely for each role

Comprehensive storage throughout — lateral files, adjustable shelving units, hutches, credenzas, and mobile pedestals

Fabric tackboards in every office keeping the full administrative team organized

A unified Artopex Mythos aesthetic from the first office to the last — professional, cohesive, and built for long-term daily use serving over 2,200 families
