

Auditorium Seating Replacement

Challenge

The hub's 380-seat auditorium was showing its age. The existing chairs were uncomfortable, outdated, and beginning to affect the experience for participants, staff, and guests. Replacing hundreds of seats while adhering to a strict schedule and budget presented a unique challenge. The work had to be completed safely, efficiently, and without interfering with the facility's daily operations.

A smart city innovation hub and cornerstone of its community sought to revitalize their auditorium — creating a more comfortable and modern space for briefings, performances, and community-wide events. With over 380 seats, the space was essential to campus life but years of daily use had left the existing seating worn, outdated, and in need of a full replacement. They called Boomerang Office Furniture.

Solution

Boomerang Office Furniture partnered with Sedia Systems to deliver a complete seating replacement project that gave the auditorium a refreshed, professional look and improved functionality.

Full Removal & Preparation:

The Boomerang team carefully removed all 380 existing seats, ensuring each piece was dismantled and cleared without damaging the surrounding space or flooring.

Installation of New Sedia Systems Seating:

High-quality, ergonomically designed seating from Sedia Systems installed throughout — built for durability, comfort, and long-term performance. The new layout maximized audience visibility and provided an updated aesthetic matching the hub's vision.

Efficient Project Coordination:

From start to finish, every detail of the installation was managed to ensure the project stayed on schedule and was completed without delays or disruptions to facility activities.

Conclusion

By partnering with Boomerang Office Furniture, this smart city innovation hub transformed its outdated auditorium into a modern, functional space built to serve students, staff, and the community for years to come. Through meticulous planning and expert installation, Boomerang demonstrated its ability to deliver large-scale educational projects with professionalism, efficiency, and attention to detail. Whether it's an auditorium, classroom, or campus facility, Boomerang provides turnkey furniture solutions that elevate every learning environment.

Results

380 new Sedia Systems seats installed with precision and care

Full removal of existing seating completed on time and on budget

No disruption to classes or facility events during installation

Positive feedback from faculty and administrators praising the improved comfort and appearance
